SATURDAY EVENING, MAY 10, 1902.

See how the Times—there are two different ways of looking at this. It is only as we see the world through the eyes of the Times that we can see the world as it really is. The Times is the only paper that gives you the world as it really is, not as you wish it to be.

It is possible that the minister, when he comes to the altar, will find the bride waiting for him. But it is also possible that he will find the bride waiting for him. The minister is the only one who can see the world as it really is, not as you wish it to be.

There is a great deal of talk about the Times. But it is only as we see the world through the eyes of the Times that we can see the world as it really is. The Times is the only paper that gives you the world as it really is, not as you wish it to be.
